DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art fails to teach generating an encryption key based on data which is recorded on the medium determined from a wobbling frequency, yet is not part of the encrypted data. Also, decryption involves reproducing a file and using a key generated by the encryption process, where the key is based on random data from a source different than that of the encrypted data and inserted in between encrypted data, yet is not part of the encrypted data. In addition, a terminal disclaimer was filed in response to a double patenting rejection for patent number 5,917,910.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brandon S. Hoffman whose telephone number is 571-272-3863. The examiner can normally be reached on M-F 8:30 - 5:00.
